

## What EDGAR Forms Can You File?

Last Modified on 09/30/2019 2:33 pm EDT

The table below contains an alphabetical list of all the EDGAR form types that can be filed using the software. Submission of EDGAR forms is safe and secure. If you do not see the EDGAR form you want to file in the list below, contact the [portal support](#) team. Development is a continual process with a flexible schedule for the addition of new forms, and your feedback will help us determine which forms we should prioritize.

All EDGAR forms in this list have full support for both the form and the creation, editing and validation of their documents. This means that you will be able to create the official HTML document for EDGAR submissions that require an official HTML document. GoFiler Online also has support and tools to create, edit and file Inline XBRL documents.
